UPSE & National Union on Healthcare!

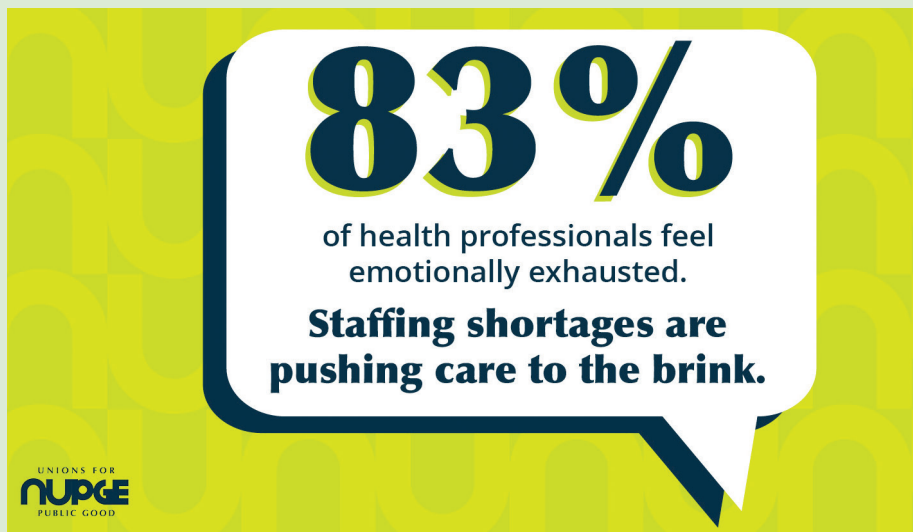

Our health care system is in crisis—not because it's public, but because it's been neglected.

NUPGE's new survey of 6,400+ health professionals shows:

- **91%** say the system is in crisis
- **83%** report emotional exhaustion
- **40%** are considering leaving in the next 3 years

The solution isn't privatization—it's investing in the workers who keep health care running.

We need fair wages, safe staffing, and real action from every level of government.
